Internship: Node/React guru with financial flair (80-100%)

About vestr AG

vestr AG is a dynamic Swiss fintech start-up founded in 2017. Our B2B-platform digitizes the value chain for Actively Managed Certificates, a flexible and fast-growing alternative to investment funds. Our customers and investors include well-known banks and infrastructure providers, such as SIX Group, the operator of the Swiss Exchange. We are currently looking for a brilliant computer science student to join our team as an intern in Zurich for a minimum of 3 months.

What we offer

At vestr, we offer an ultra-flexible work environment, interesting programming challenges, and an opportunity to work with and learn from a highly skilled scrum team:

- Leverage state-of-the-art technologies and an automated CI/CD pipeline
- Experience the hustle and bustle of a trading floor
- Soak up detailed knowledge of financial markets and technologies
- Get compensated fairly for your work and benefit from our perks
- Work autonomously and pursue your own problem-solving approach
- Follow-up the internship with an industry-relevant thesis project

What you bring to the table

- You possess strong Java-/TypeScript skills with previous exposure to Node and/or React
- You have taken first steps with GraphQL and appreciate its advantages over REST
- You previously worked with virtualization technologies, such as Docker, and Kubernetes
- You have conceptual knowledge of CQRS, Event Sourcing, Messaging, and Micro-Services
- You enjoy learning and don't hesitate to ask for advice if needed
- You can work under deadlines and communicate openly on your progress

Did we peak your interest? Please don't hesitate to get in touch! But beware: our job postings tend to generate a ton of interest, so stop procrastinating and tell us why you are a good fit. A very compelling argument will be contributions to open-source projects you have made – so don't forget to send us a link to your Github account if you have one.

How to apply

Please email your CV along with links to your projects to jobs@vestr.com.
